Professional Development Conference
September 14 – 17, 2008

CSSE'S PROFESSIONAL DEVELOPMENT CONFERENCE

Schedule of Events

WEDNESDAY SEPTEMBER 10 AND THURSDAY SEPTEMBER 11

8:00 am – 5:00 pm Applied Risk Communication Skills Course

FRIDAY SEPTEMBER 12 AND SATURDAY, SEPTEMBER 13

8:00 am – 5:00 pm
CRSP Exam Prep Course
Consulting Skills Course (two courses, one in English and one in French)
The Essentials of Occupational Health, Safety and Environmental Law in Canada (Friday only)

SUNDAY SEPTEMBER 14

7:30 am – 8:30 am Meet and Greet Breakfast for Education Committee and Instructors (by invitation only)
8:00 am – 9:00 am Registration opens
9:00 am – 12:00 pm CSSE Regional Councils' Meeting (for all Chapter Chairs or their designates)
12:00 pm – 8:00 pm Registration
1:00 pm – 4:30 pm Pre-Conference Professional Development Sessions:
Techniques for Hazard Recognition
CSAZ1006, Management of Confined Space Entry (Z1006) – The New CSA Standard
CSSE Annual General Meeting
4:45 pm – 5:45 pm Welcome Reception
6:00 pm – 8:00 pm

MONDAY SEPTEMBER 15

7:00 am Registration Opens
7:00 am – 8:30 am Breakfast
8:30 am – 10:00 am Opening Ceremonies & Keynote Speaker:
Wade Davis
The Honourable David Whissell, Minister of Labour (invited)
10:00 am – 10:45 am Exhibits Open, Networking Break in Exhibit Area
10:45 am – 12 noon Concurrent Workshop Sessions #1
12:00 noon – 1:30 pm Lunch in Exhibit Area
1:30 pm – 2:45 pm Concurrent Workshop Sessions #2
2:45 pm – 3:15 pm Networking Break in Exhibit Area
3:15 pm – 4:30 pm Concurrent Workshop Sessions #3
4:30 pm – 6:00 pm Reception in Exhibit Hall
6:00 pm – 11:00 pm Boat Cruise and Dinner on the St. Lawrence River (optional, additional registration required)

TUESDAY SEPTEMBER 16

7:00 am – 8:30 am Registration opens & Continental Breakfast in Exhibit Area
8:30 am – 10:00 am Keynote Speaker: Chantal Hébert
10:00 am – 10:30 am Networking Break in Exhibit Area
10:30 am – 11:45 am Concurrent Workshop Sessions #4
11:45 am – 1:30 pm Lunch in Exhibit Area
1:30 pm – 2:45 pm Concurrent Workshop Sessions #5
2:45 pm – 3:15 pm Networking Break in Exhibit Area (Exhibits close)
3:15 pm – 4:30 pm Concurrent Workshop Sessions #6
5:00 pm – 6:00 pm CHSC & Professional Member Reception (invitation only)
6:00 pm Dine Around on own
9:00 pm Networking at Maurice Entertainment Complex (exclusive CSSE area)

WEDNESDAY SEPTEMBER 17

8:00 am - 9:00 am Registration Opens & Sit Down Breakfast and Awards Ceremony
9:00 am - 10:15 am Concurrent Workshop Sessions #7
10:15 am - 10:45 am Networking Break
10:45 am - 11:45 am Keynote Speaker and Closing Ceremonies: Dr. Gilles Lapointe

THURSDAY SEPTEMBER 18 AND FRIDAY SEPTEMBER 19

8:00 am – 5:00 pm
Obligations & Liabilities for the OH&S Professional
Health & Safety Program Evaluation course

Thank you to the Conference Committee

The Professional Development Conference & Exhibition would not have been possible without the dedication and contributions of the following people:

Paul Therriault, CHSC (Chair)

John Boerefyn, CRSP, CHSC

Elaine Wolfson, CRSP

Thomas Abercrombie, CRSP

Claude Leblanc

Greg Swan, CHSC

Yvonne Thompson, CHSC

Denise Howitt, CRSP

Wes Guenther, CRSP

Wayne Glover, CAE

Ed Paradowski

LEVERAGING PARTNERSHIPS 2008

The place to be September 14 – 17, 2008 is Quebec City, where top safety professionals from across Canada will gather for CSSE's 2008 Professional Development Conference and Exhibition.

The conference theme this year is "LEVERAGING PARTNERSHIPS". The Conference Committee has put together a conference program that captures the feedback from previous conferences in an effort to continually improve the quality of the conference, while at the same time is aligned to the theme of leveraging partnerships.

The sessions will challenge your thinking and provide practical insight into emerging issues, allowing you to transfer your knowledge to the health and safety programs in your organization. Mr. Wade Davis, Explorer-in-Residence at the National Geographic Society is the opening Keynote Speaker. The Honourable David Whissell, Quebec's Minister of Labour is an invited speaker. The Tuesday Keynote Speaker will be Chantal Hébert, political raconteur and columnist. The Keynote at the Closing Ceremonies will be Dr. Gilles Lapointe, well known author, professional speaker and storyteller with a unique and humorous message about the importance of attitude in life.

In addition, CSSE is offering five of its professional development courses before and after the conference so you can make the most of your time in beautiful Quebec City.

CSSE's Professional Development Conference is unique in its ability to combine a top notch program, professional development opportunities and the chance for safety professionals to network with their peers.

The sessions, and the presenters, for this year's conference were chosen for their expertise and effectiveness in creating a learning environment that will offer information and learning experiences for all levels of experience—whether it's basic, intermediate or senior.

We hope you make this conference the critical professional development event of your year!

Keynote Presentations

MONDAY, SEPTEMBER 15

8:30 am – 10:00 am

Wade Davis

Wade Davis is an Explorer-in-Residence at the National Geographic Society. Named by the NGS as one of the Explorers for the Millennium, he received his PhD in ethnobotany from Harvard University and his work as an anthropologist and botanical explorer has taken him from the forests of the Amazon to the mountains of Tibet, from the high Arctic to the deserts of Africa.

Wade Davis' lecture presentations, illustrated by exquisite photographs, are a wild and moving celebration of the wonder of humanity, and the diversity of the human spirit as expressed in the myriad cultures of the world.

Anyone who has environmental responsibilities in the carrying out of their occupational health and safety duties will benefit from hearing Wade's perspective on what is happening to the global climate as he has seen it first hand.

The Honourable David Whissell (invited)

Quebec's Minister of Labour

TUESDAY SEPTEMBER 16

8:30 am – 10:00 am

Chantal Hébert

Chantal Hébert, Toronto Star political columnist, cut her teeth in politics at Queen's Park in the late seventies covering the minority governments of Progressive-Conservative premier William Davis.

Since then she has reported in French and in English on Canada's constitutional and referendum wars, the 1988 free-trade debate as well as the more recent rebirth of the Conservative movement.

In addition to her columns, Chantal is a regular member of the CBC's At Issue panel, broadcast weekly on The National.

WEDNESDAY SEPTEMBER 17

10:45 am – 11:45 am

Dr. Gilles Lapointe

Dr. Lapointe has lectured across Canada, in both French and English, to various groups including judges and attorneys, sales representatives, civil servants, medical practitioners, and many more. He focuses on the importance of attitude in life. He helps individuals cope with stress by introducing the seven laws of success, important information about how to handle tough days. Self-image, simplicity in your life, dignity and human pride are addressed in his humorous, yet insightful presentations.

He is fluently bilingual, an accomplished musician and extremely entertaining—his keynotes bring audiences to their feet and tears of laughter to their eyes.

PREVENTION SOLUTIONS THAT WORK: A CSSE CONTEST

Submit your entry and win CASH PRIZES for the best prevention solution!

Due to the success of the Prevention Solution Contest program in the past, this initiative will take place again at the CSSE 2008 Professional Development Conference and Exhibition in Quebec City, September 14 to 17, 2008. Start preparing your solution now – win cash prizes and be recognized by your peers for your innovative solution! Prevention Solutions do not need to be complex – in fact, ideas that are simple, practical, and effective tend to be the most useful.

This contest is being co-sponsored by the Workplace Safety & Insurance Board (WSIB) Ontario, WorkSafeBC (Workers' Compensation Board of BC) and Workplace Health, Safety and Compensation Commission of New Brunswick (WHSCC).

HERE'S A RECAP ON THE "PREVENTION SOLUTIONS" CONTEST AND THE PROCESS TO SUBMIT AN ENTRY:

All CSSE Members and/or Conference Delegates who have met a health and safety challenge in their workplace are encouraged to submit an entry. Examples could include:

- Specific safety procedures
- Innovative control measures
- Effective and innovative training programs
- Prevention tools
- Innovative H&S promotion programs

HOW TO SUBMIT A PREVENTION SOLUTION

CSSE Members and/or Conference Delegates are to forward a copy of their Prevention Solution to conference@csse.org by **August 20, 2008**. Or they can mail a copy to the CSSE office: 39 River Street, Toronto, ON, M5A 3P1. A digital version of the submission on CD (in Word, Excel, Powerpoint, etc) must accompany each entry in order to qualify.

Participants are responsible for bringing a hard copy of their submission to the conference and posting it on the bulletin board on Sunday, September 14th.

FORMAT

All submissions will be posted on a bulletin board in order to be judged by those in attendance at the conference. A maximum space of 2' x 3' is permitted, but if you require a little more space we ask that you please include a request at the time of submission.

Throughout the conference, delegates will choose the entry which they feel best resolves a health and safety challenge. The following criteria will be used to judge the solutions:

- Presentation – packaging the idea for presentation to others to use
- Innovation – unique, cost effective solutions to common issues
- Effectiveness – measurable, outcome-based solutions
- Transferable – adaptable to a variety of workplaces

CASH PRIZES!!!

1ST PLACE = \$500.00

2ND PLACE = \$350.00

3RD PLACE = \$150.00

All Prevention Solutions will be posted after the conference on the WSIB's Prevention Practices web site for sharing with others. A link to this site will also be available on the WorkSafeBC web site located at www.WorkSafeBC.com.

If you have any questions about the Prevention Solutions Contest, please e-mail Ed Paradowski at the CSSE office: conference@csse.org.

For more information on the Prevention Practices/Solutions in health and safety, visit the WSIB's Prevention Practices Web Site at: www.PreventionPractices.com.

CSSE HEALTH, SAFETY AND ENVIRONMENTAL EXHIBITION 2008

The Canadian Society of Safety Engineering is pleased to bring you the 39th annual edition of the CSSE Health, Safety and Environmental Exhibition 2008, held in conjunction with the Professional Development Conference. This Exhibition will take place at the Quebec City Convention Centre and will feature some of North America's largest and best-known suppliers of health, safety and environmental products and services.

Whether you are seeking the latest in personal protective equipment, consulting services, training programs or services, computer-assisted record keeping or new and innovative ideas in safety, find the answers at this year's exhibition. You will be able to speak to skilled sales and technical consultants to discuss and find solutions to your workplace concerns.

Exhibit Hours

Monday, September 15: 10:00 am – 6:00 pm

Tuesday, September 16: 7:00 am – 3:15 pm

INTERESTED IN EXHIBITING?

If you are interested in keeping OHS&E professionals throughout Canada informed and current about your products and services, the CSSE Exhibition is a “must attend” event. Contact Ed Paradowski at 416-646-1600 for more details on how participation at this year's Exhibition can give your organization maximum exposure to key OHS&E decision makers. Or you can visit the CSSE website at www.csse.org for exhibition forms.

WANT TO BE A SPONSOR OF THE CONFERENCE?

Our sponsors are progressive organizations committed to the future of the CSSE and the many innovative programs it supports. Special recognition is extended to these companies during the Professional Development Conference for their generous financial and product support. Because of these organizations, we have the resources to attract top quality speakers, provide in-depth workshops and feature a full calendar of conference events. Become one of our featured sponsors.

By participating in the CSSE Sponsorship Program, your organization will be taking advantage of excellent promotional opportunities while realizing maximum exposure to OHS&E professionals from around the world. Want to find out more? Contact Ed Paradowski at 416-646-1600 for details on CSSE's Sponsorship Program.

CLASSIFICATIONS FOR WORKSHOP PRESENTATIONS

Delegate evaluations from professional development conferences in prior years often noted that the level of presentation should be noted with the topic description.

The CSSE Conference Committee created a 3 level classification system to guide delegates with selecting the presentations that fit their needs. The classification levels of Basic, Intermediate and Senior offer an indication about the level of presentation for a delegate's consideration.

CLASSIFICATION CRITERIA:

B	Basic	Introductory level subject matter, intended for those with entry level OHS&E responsibilities.
I	Intermediate	Mid level subject matter, geared to experienced OHS&E practitioners.
S	Senior	Aimed at those with senior OHS&E responsibilities and very experienced practitioners.

While every effort is made to ensure an accurate description of a presentation, CSSE Conference Committee does not give assurance that the presentation style and/or the subject matter will meet all individual expectations.

PRE-CONFERENCE PROFESSIONAL DEVELOPMENT SESSIONS

Half Day Sessions (included in registration fee)

B = Basic **I** = Intermediate **S** = Senior

SUNDAY, SEPTEMBER 14

1:00 pm – 4:30 pm

Techniques for Hazard Recognition

David F. Coble

B Even in organizations with the best of safety and health management systems, hazards can be overlooked. Every organization needs a variety of hazard recognition techniques and employees must be adequately trained to use them. This presentation, using pictures, will describe over 30 different techniques with an emphasis on practical techniques for field employees.

CSA Z1006, Management of Confined Space Entry (Z1006) – The New CSA Standard

Elizabeth Rankin

Lisa Williamson

Canadian Standards Association

I The Canadian Standards Association is developing the first edition of CSA Z1006, Management of Work in Confined Spaces. This session will highlight best practices in this soon-to-be National Standard of Canada and provide participants with opportunity for feedback prior to publication in Spring 2009.

Conference Program

CONCURRENT WORKSHOP SESSIONS #1

MONDAY SEPTEMBER 15

10:45 am – 12 pm

1A

Shake Off the Cobwebs on Your Incident Investigation Skills

Alan D. Quilley
Safety Results Ltd.

I Examine incident causation using a new perspective. Incidents are rarely caused by a defined set of blocks falling neatly into a pile. Dominos and root cause analysis sheets don't always fit the situation. Look at incident causation using the Energy/Barriers model and find a new way to look at prevention.

1B

Implementing a Management System for Health, Safety & Environment

James Ebidia
Drake International

S The presentation will provide participants with knowledge on the practical and business value of managing safety, health and environment using a managed system approach. It will assist those safety professionals to prepare a business case for a management system implementation. Participants will be introduced to a methodology that will help their organization implement the safety, health and environment management system of their choice or to begin to manage safety, health and environment in a more proactive and systematic way.

1C

Hearing and Steering the Conversations that Matter

Joel Rabideau
Gap Inc.

I Senior EH&S Leaders need to ensure that you are hearing and steering the conversations that matter, and if you don't know what those conversations are, the company's people, reputation and your job are at risk. You must be able to present each business case to an ELT soundly explaining the positive ROI associated with doing everything reasonable.

B = Basic **I** = Intermediate **S** = Senior

1D

Innovative Techniques in Accident Reduction

Rick Donovan
Mississippi Lime Company

B During this session you'll learn innovative techniques that have driven down the incidence rate at a large mining operation and then repeated at smaller sites with award winning results. This safety process tells you where we started and follows the process to current day. What 2 made the most impact?

1E (Français)

Changement de Culture en Santé et Sécurité - Aller au delà de la simple conformité aux lois et règlements

FrancoisCote
Kevin Flowers

I Au cours de la dernière décennie, les organisations ont réalisé d'importantes améliorations de leur performance en santé et sécurité par la mise en œuvre de systèmes de gestion. Par contre, les gains de performance semblent avoir atteint un plateau et les améliorations futures semblent représenter un défi. La combinaison de composantes comportementales et de culture d'entreprise aux programmes de sécurité existants permet aux gestionnaires de pouvoir viser une amélioration importante de la sensibilisation des travailleurs au concept de réduction des risques en milieu de travail.

Cette présentation décrira le processus d'évaluation de la culture d'entreprise et comment celui-ci peut aider à mener vers des changements dans le comportement des travailleurs en matière de sécurité et à mobiliser toutes les ressources dans un effort concerté à la non acceptation de la complaisance et de faire de l'objectif d'atteindre zéro accident une réalité.

CONCURRENT WORKSHOP SESSIONS #2

MONDAY SEPTEMBER 15

1:30 pm – 2:45 pm

2A

Review of the New CSA Standards for Fall Protection

Joseph Feldstein
MSA

I This presentation will provide a detailed review and interpretation of several new Canadian national consensus standards for fall protection, including equipment requirements and guidance on selection and use of fall protection systems for various work applications.

Conference Program

2B

Integrating Safety Management Techniques in Frontline Supervision

Daniel J. Snyder
Performance Based Safety LLC

I This discussion will focus on the design, implementation and evaluation of a professional development program for frontline supervisors and describe the process of integrating safety management techniques into frontline supervision through training, coaching, and observation and feedback systems. Real world case studies will be used based on presenters experience across a variety of industries and contemporary best practices in safety management techniques. Learners are encouraged to participate in the discussion.

2C

Taking Control of Workplace Safety

Philip La Duke
O/E

I For too long, many organizations have seen workplace injuries as an unavoidable part of doing business. Injuries are often seen as endemic to the nature of the work. This session will explore ways to take control of workplace safety and reduce worker injuries by using simple, practical, and common-sense tactics.

2D

One For All – Teamwork The Meerkat Way

Paul Pascoe
Professional Safety Solutions

I Teamwork has never been captured in such a fresh and exciting way! But then most presentations don't feature the engaging meerkat of the Kalahari Desert in a starring role.

“One for All” is an inspirational presentation that utilizes riveting footage of meerkats in their natural habitat using teamwork and cooperation to ensure their survival! “One for All” both teaches and motivates with its down-to-earth demonstration of important teamwork principles and participants will clearly understand the value of team-oriented behaviours.

2E

Challenging Our Culture of Risky Driving

Spenser McDonald
Thinking Driver

B How do we reduce vehicle related incidents and shift from a culture of excessive risk to one of rational and considered risk? To be effective in changing corporate driving culture we must confront worker/driver attitudes individually and collectively. This session explores the psychology of driving and how to facilitate these changes of attitude and workplace driving culture.

CONCURRENT WORKSHOP SESSIONS #3

MONDAY SEPTEMBER 15

3:15 pm – 4:30 pm

3A

Application of Process Safety Management Standard

Holly C. Elke
SH&E System Solutions Inc.

S In 1992, OSHA issued the Process Safety Management (PSM) standard in response to a growing number of worldwide catastrophic accidents involving hazardous products. This standard was the first guideline in North America to provide employers with a systematic and proactive method for identifying, evaluating and mitigating, or preventing, chemical releases that could occur as a result of a failure in a process, procedure or equipment.

This session will focus on the application of key risk assessment methods and tools that are being used by Canadian and International organizations to meet the PSM standard.

3B

Drug and Alcohol Testing – Safety Goals, Building Blocks and Strategies for Success

Dr. Barry D. Kurtzer
DriverCheck Inc.

I Drugs and Alcohol can seriously impact health, safety, the environment, and productivity. Highlighting the successes of many Canadian corporations, attendees will learn how to build meaningful and legally defensible Workplace Drug and Alcohol Testing Programs. Key benefits of using qualified Third Party Administrators and Medical Review Officers will be revealed.

3C

Business Continuity Planning

Diane Krock
ModuSpec USA Inc.

I A business continuity plan is essential to the long term success of companies of any size. Attendees should gain information to assist them to establish a BCP. The presentation will include reasons for establishing a BCP, applicable reference materials, provide information to assist with identifying their BCP team members, roles and responsibilities. Other information covered will include the steps for information gathering, completing the risk assessment and evaluation of critical dependencies both internally and externally, management of vital records, IT management, equipment inventories, calling trees, recovery procedures, and the necessary steps needed to return to normal business.

Conference Program

3D

Health and Safety Culture – Moving Beyond Compliance

FrancoisCote

Stacey Lucas

I Organizations over the last decade have achieved significant improvements in Safety performance by implementing management systems but the gains in performance seem to have reached a plateau and further improvements are proving to be a challenge. Combining behavioural and cultural components to existing safety programs can provide a step change improvement by leveraging the skills and experience of the entire organization.

This presentation will describe the process of culture assessment and how it can assist in leading to changes in safety behaviour and mobilize all resources in a concerted effort of non acceptance for complacency and to make the goal for zero accident a reality.

3E (Français)

Défier Notre Culture de Conduite Risqué

Daniel Boyer

Thinking Driver

B Comment pouvons-nous réduire les incidents véhiculaires et à passer d'une culture de risque excessif à une de risque raisonnable et considéré ? Pour être efficace à changer la culture de conduite d'entreprise, nous devons affronter des attitudes d'ouvrier/chauffeur individuellement et collectivement. Cette session explore la psychologie de la conduite et comment faciliter ces changements d'attitude et de culture de conduite.

CONCURRENT WORKSHOP SESSIONS #4

TUESDAY SEPTEMBER 16

10:30 am – 11:45 am

4A

Using Lean Manufacturing and Six Sigma to Improve Ergonomics Performance

Scott Smith

EORM

S Struggling to get ergonomics issues corrected? Not sure how to position ergonomics or health and safety within your organization? We have the answer, Lean MFG and Six Sigma. See how leading companies are leveraging Lean and Six Sigma to improve overall EH&S performance especially ergonomics to save significant money and a few limbs along the way.

4B

Responding to a Transportation Incident – Lessons Learned

Wayne Summach

Cameco Corporation

I Wayne will discuss the challenges of Class 7 incident responses, what went right, what went wrong, and the lessons learned from incident responses that can improve your own emergency response programs. This presentation will also highlight Cameco's outreach program to first responders and emergency response

4C

Do You Have "The Right Stuff" In Your Electrical Safety Program?

Terry Becker or Mike Doherty

ESPS Electrical Safety Program Solutions INC.

S Government Regulations and industry Standards of Practice related to being exposed to electrical hazards when working on energized electrical equipment are evolving, and emphasizing the need to ensure appropriate due diligence is taken. The electrical hazards of arc flash/blast, shock & electrocution may not be that well understood, or there may be a misunderstanding of the magnitude of these hazards. As well the new CSA Z462 Workplace Electrical Safety Standard will be published in the 4th Quarter of 2008. Do you have the right stuff in your Electrical Safety Program to deal with this new electrical safety standard?

4D

"Everyone Returning Home Safe"! How to Link Safety and Leadership to Make It All Work

Paul Sovinski

Stars International, Inc.

I Safety has been managed in a vacuum – disconnected from leadership development. Our powerful people focus creates a better safety culture – touching hearts through personal responsibility. Not a hard-hat-sticker program, but a participative Leadership Development/Safety Process that includes Leadership Safety Workshops and "on-site" Coaching to sustain the momentum.

Conference Program

4E (Français)

Comment la Sécurité des Machines Peut Représenter une Économie Financière et une Productivité Accrue

Alain Brassard
Groupe Conseil Roche-Cadec ltée

B L'importance accordée à la santé et la sécurité des individus oblige les entreprises à prendre des moyens pour réduire les risques de dommages pour les travailleurs. Il existe des moyens de limiter l'impact financier des efforts en SST. Il existe aussi des moyens d'améliorer la performance en implantant des mesures de réduction des risques. Comment y accider?

CONCURRENT WORKSHOP SESSIONS #5

TUESDAY SEPTEMBER 16

1:30 pm – 2:45 pm

5A

GHS Meets WHMIS: Planning and Preparing for Changes

Cathy Dumschat
Canadian Centre for Occupational Health and Safety (CCOHS)

B The Globally Harmonized System of Classification and Labeling of Chemicals (GHS) was developed to provide consistent communication of chemical hazard information, around the world. Understand the challenges ahead and the implications for WHMIS training and MSDS management. What can you do now to prepare for these changes?

5B

Planning a Mega-Project, The Retube/Refurbishment of Point Lepreau Nuclear Generating Station

James Campbell
Atomic Energy Canada Ltd..

I Tools and strategies to be utilized to ensure that "Supplemental Workers" are properly selected and subsequently engaged to being an integral part of a project team to ensure schedule and budget goals are met. Steps necessary for the planning of Health and Safety into a large project.

5C

Analyzing Management Commitment & Involvement

Dennis P. Bolger
Benchmark Safety Inc.

I The results of 250+ health and safety audits, using the same audit protocol and instrument over a five-year period, have been analyzed to evaluate the level of management commitment and involvement to health and

safety program activities. Participants will receive potential solutions to ongoing problems they encounter with management commitment and involvement.

5D

Peace at Work: The New Safety Imperative

David K. Law
Partner Edmond Harnden LLP

S Personal behaviour can pose risk to workers, whether through harassment, bullying or violence itself. Regulators such as the Ontario Ministry of Labour and arbitrators increasingly see these as occupational safety issues. Safety professionals must now apply their analytic skills to these topics and consider how to manage what were traditionally employment matters, in the context of preserving a safe workplace. But how will human resource managers respond to that initiative and can safety practitioners, or even joint committees, really play a constructive role in this realm?

CONCURRENT WORKSHOP SESSIONS #6

TUESDAY SEPTEMBER 16

3:15 pm – 4:30 pm

6A

Preparing Your Organization for a Pandemic: Meeting the Health, Legal, Business Challenge

Norman A. Keith
Gowling Lafleur Henderson LLP

I This discussion introduces participants to the legal framework applicable to businesses during an outbreak of pandemic influenza. Participants will glean information and suggestions that will assist their businesses in meeting their legal obligations as employers, with an emphasis on employers' responsibilities under occupational health and safety and employment standards legislation.

6B

"Sustaining an Error Management Culture" The System Approach

Keith Martinsen
LOHFT Development Ltd.

S The most significant threat to safety and profitability is human error. What strategies do you have in place to mitigate its consequences?

During this entertaining presentation you'll discover challenges the aviation industry faced as they struggled to identify problems in the cockpit that led to many devastating accidents. Learn how this industry evolved to be the safest means of travel by adopting an "error management culture".

6C

Why and How Machine Safety Represents Low Costs and High Productivity

Alain Brassard

Roche-Cadec Consulting Group Limited

B Health and safety requirements in the work place have forced companies to take measures to reduce risk of harm for workers. There are ways to reduce the negative financial impacts of HS&E efforts. Better, there are ways to improve financial performance by implementing risk reduction measures. How can one get there?

6D

Leading Indicators of Safety Performance:

What Are They? Are They Important? Are They Valid?

Nina Novak

Newalta Corporation (Calgary, Alberta)

Tony Roithmayr

Performance by Design Inc

I This session will engage you on several provocative questions: What, if anything, do commonly accepted measures of safety performance tell us about safety management effectiveness? Can "upstream" leading indicators be predictive of safety outcomes? What should they measure? How would we know if they are valid? Recent research overviews the current state of safety performance measurement

CONCURRENT WORKSHOP SESSIONS #7

WEDNESDAY SEPTEMBER 17

9:00 am – 4:30 pm

7A

Occupational Health: Stresses, Strains and Solutions

Lisa Fowlie

IOSH

S This session aims to understand the concepts and effects of pressure and stress, with particular consideration to the triangle of health, for behavioural, emotional and physical outcomes. Also, the session will focus on interactions with individuals in recognising the outcomes of stress in themselves and others, and outline how using a stress management standard tool can identify issues and effectively target partnership actions by HR, Occupational Health, Health and Safety professionals and line managers.

7B

Intervention to Prevention – A System Approach to Integrating Ergonomics from the Floor – Board to the Drawing Board

Chris Burton

Toyota Motor Manufacturing North America

James Mallon

Humantech

I Improving the ergonomic design and layout of manufacturing operations reactively through continuous improvement and risk management activities is only half the equation. Effectively incorporating lessons learned in the design of new manufacturing processes is the key to sustainable and steady improvement. Learn how Toyota identifies and makes improvements at the workstation level and then incorporates those efforts upstream in advanced manufacturing.

7C

Risk Communication in the New Millenium

Glyn Jones

EHS Partnerships Ltd.

S Today we live in an economy of fear. We fear some things that should not be feared. We are not afraid of things we should be concerned about. Our job as risk communicators is to discover the bias people have about risks and to help them to think and act rationally about them.

7D

Safety Kaizens – A Case Study Intervention to Improving Safety Performance

J.F. Kim Froats

McCain Foods Canada

I This session describes the use of lean concepts, particularly Kaizen events used at McCain Foods (Canada) as a tool to improve safety performance through enhanced hazard identification and employee engagement. (Kaizen in Japanese means "to make change for the better.") This session provides details on how safety Kaizen events are conducted and the improved safety results seen within McCain Foods (Canada) as part of continuous improvement process to eliminate waste and potential losses.

NETWORKING OPPORTUNITIES

Each year CSSE conference delegates tell us how valuable it is to be able to interact with their peers in a relaxed environment. We have ensured that the 2008 program contains plenty of opportunities for you to meet new colleagues and renew acquaintances with health and safety professionals from across Canada.

WELCOME RECEPTION

Sunday September 14
6:00 pm

CSSE will host an opening reception on Sunday evening for delegates to register for the conference, meet old friends and colleagues and make new acquaintances in a relaxed and friendly environment. Some appetizing finger food and a cash bar will be available as you talk with other delegates and catch up on what has been happening over the past year. This relaxed environment is the perfect way in which to begin your conference.

BREAKFASTS

Breakfasts on three mornings are included in the registration fee. This is also a great way to start the day meeting people you have not yet met, and sharing which workshop sessions you are planning to attend. Breakfast on Monday will be at the Hilton Quebec. Breakfast on Tuesday will be in the Quebec City Convention Center. Early risers will be accommodated with a 7:00 am start and a full continental breakfast layout. Wednesday morning, there will be a full-service seated hot breakfast starting at 8:00 am while this year's Awards Ceremony honours the best in the Canadian occupational safety, health and environmental profession.

NETWORKING BREAKS

There are regular refreshment breaks scheduled between the professional development sessions throughout the conference to give delegates the opportunity to network with each other. Some breaks on Monday and Tuesday are lengthened to give delegates the opportunity to visit the exhibit area during these times. The

exchange of business cards is encouraged as professionals from across the country make important connections. On Tuesday, be sure to start arranging your groups for the Dinner on the Town event in the evening.

LUNCHES

Lunches on Monday and Tuesday are provided in the exhibit area. The lunch time is extended allow you to grab a bite to eat and continue to visit our loyal exhibitors who have put a lot into exhibiting with us and need your support. There will be some seating available but delegates are asked to be mindful of those delegates who are not able to stand and to give over their seats to those people. Of course, this mixing of people throughout the meals allows for an easy introduction to people you have not met before or to whom you have not yet had a chance to talk. It's always nice to multi-task, even at lunch at the conference!

RECEPTION IN THE EXHIBIT HALL

At the end of the sessions on Monday, from 4:30 to 6:00 pm, we encourage you to return to the exhibit area and continue to talk with our dedicated exhibitors and compare notes with other delegates. Each delegate will receive a complimentary drink ticket for use at this reception. There will be cash bars also available. Be sure to stop in and check it out.

EVENING DINNER CRUISE ON THE ST. LAWRENCE RIVER

(Optional, additional registration required)

Monday September 15
6:00 pm – 11:00 pm

As the sun goes down, take in all the magic of Quebec City by night. The fabulous view from the glassed-in deck sets the stage for a very special evening. Enjoy a cocktail at the cash bar or stroll on the outside terrace while waiting for the cruise to depart at 7:00 pm. Then savour a 5 course meal prepared by Chef Santino Testane. This promises to be an evening you will never forget!

DINNER ON THE TOWN/CREATE YOUR OWN DINNER GROUP

Networking Party at Club Maurice
Tuesday September 16

This evening is the perfect opportunity for you to explore the beautiful City of Quebec at your own pace. Stroll around the charming streets and alleys of the Old Town, where you'll find quaint shops and restaurants. Information on restaurants will be provided so that you can create your own Dinner Group for an evening of good food and fun!

After dinner, join us at Club Maurice in the Charlotte Lounge (reserved exclusively for CSSE) for an evening of networking, entertainment & fun. The festivities begin at 9:00 pm. A cash bar and menu will be available. Catch up on news with old friends and make some new ones!!

Professional Development Courses

Applied Risk Communication Skills

Wednesday September 10 and Thursday September 11
8:00 am - 5:00 pm

This two-day course provides OH&S professionals with an understanding of fundamental principles in risk communication, media interest in health and safety issues, techniques in designing and delivering messages to senior management, employee groups, the public and the media and managing strategic change. It also provides practice in communicating on OH&S issues in the context of reporting, advising, representing and training. This course has a strong practical component.

Completion of this course will count as one credit towards the Certified Health and Safety Consultant (CHSC) designation, and as one elective credit towards the OH&S Certificate at British Columbia Institute of Technology.

BCRSP has awarded this course 1.0 CMP.

CRSP Exam Preparatory Course

Friday September 12 and Saturday September 13
8:00 am – 5:00 pm

The Canadian Registered Safety Professional (CRSP) Designation is awarded by the Board of Canadian Registered Safety Professionals (BCRSP) to individuals who have met academic, experience and other application criteria, and who have passed a comprehensive competency-based examination. This designation, currently held by hundreds of safety professionals, is often requested by employers, and is noted in at least two current versions of Provincial HSE legislation.

CSSE offers a CRSP Examination Preparation Course that reflects the BCRSP Examination Blueprint and prepares participants on how to study to be successful on the 3-hour CRSP Professional Exam.

TAKE THIS COURSE TO:

- Gain an understanding of what the Safety Professional is expected to know and the BCRSP registration process;
- Begin the process of studying for the exam, including developing study strategies and 'need to knows' and;
- Refresh your knowledge, as a final 'polishing up' just before the exam.

COURSE HIGHLIGHTS

- Discussion on the registration process, the application, the interview, what to expect on exam day, the timelines for obtaining the designation, and the mandatory maintenance requirements to retain the designation.
- A skill and knowledge evaluation of the ten subject matter domains: Ergonomics, Environment Practices; Fire Prevention and Protection; Safety Techniques and Technology; Accident Theory; Occupational Health Safety and Environmental Systems; Risk Management; Occupational Hygiene; Health Promotion, Laws and Ethics and Auditing.

- Exam preparation strategies - study sessions, study groups, texts and timing
- Domain discussions - marking guidelines.
- Evaluation of your current knowledge level, practice exams, sample questions.
- Great group discussions and networking opportunities with your peers in the profession
- A copy of the BCRSP Guide to Registration (ordered separately from the course)
- A companion course CD with additional technical websites and links, sample OSH Job Descriptions, sample BCRSP Application forms (completed sample and blank) and information on developing a safety professional's marketing portfolio

Are you a Canadian Registered Safety Professional? Earn Certification Maintenance Points when you participate in this CRSP Preparation Course as a "refresher" course for professional development. BCRSP has awarded this course 1.0 CMP.

Consulting Skills

Two courses, one in English and one in French
Friday September 12 and Saturday September 13
8:00 am – 5:00 pm

This two-day course will provide an understanding of, and practice in, the application of professional consulting skills in the context of OH&S practice. This course reviews the functions and roles of a consultant; describes the phases of the consulting process; examines the processes of engagement, contracting and needs assessment; provides a conceptual and practical examination of client-consultant interactions and dynamics; reviews client motives and purposes for retaining consultants; and provides instruction in aspects of project and practice management. The course has a strong practical component.

Completion of this course will count as one credit towards the Certified Health and Safety Consultant (CHSC) designation, and as one elective credit towards the OH&S Certificate at British Columbia Institute of Technology.

BCRSP has awarded this course 1.0 CMP.

Techniques de Consultation

Ce cours de deux jours vous permettra de comprendre et de mettre en pratique les techniques de consultation professionnelle dans le contexte de la SST. Ce cours offre une révision des fonctions et des rôles du conseiller; décrit les phases du processus de consultation; examine les processus de recrutement, de passation de contrats et d'évaluation des besoins; offre une analyse conceptuelle et concrète des interactions et de la dynamique client-conseiller; examine les motivations et les raisons pour lesquelles un client engage des conseillers; et offre une formation en gestion de projets et en gestion d'entreprise. Le cours inclut un volet pratique conséquent.

Professional Development Courses

L'achèvement de ce cours représente l'obtention d'un crédit envers "the Certified Health and Safety Consultant (CHSC)" ainsi qu'un crédit optionnel pour la certification en SST de l'institut de la Technologie de la Colombie-Britannique.

Le Conseil canadien des professionnels en sécurité agréés a octroyé à chacun de ces cours un point de maintien de certification (PMC).

The Essentials of Occupational Health, Safety and Environmental Law in Canada

Friday, September 12

8:00 am – 5:00 pm

This one-day course will provide participants with the basic knowledge, skills and perceptions necessary to knowledgeably explain and demonstrate the importance of safety, health and environmental laws and regulations in Canada. In particular, the participant will be able to discern the relationship between provincial and the federal occupational health and safety and environmental laws and regulations and describe their enforcement in the different jurisdictions.

This Course has been designed to be of particular interest to anyone who is responsible for the interpretation of SHEA law as it pertains to their company's operations. It will also be of interest to a wide audience base – anyone who has a legal duty for workplace health and safety activities including directors to line supervisors to joint workplace safety and health committee members.

BCRSP has awarded this course 1.0 CMP

Obligations & Liabilities of the OH&S Professional

Thursday September 18 and Friday September 19

8:00 am – 5:00 pm

This two-day course is designed to develop an awareness and understanding of the obligations and potential liabilities that may be encountered by the OH&S professional when providing advice in the area of occupational health and safety. The focus is upon defining the types of obligations and potential liabilities and illustrating ways and means of reducing these risks.

Completion of this course will count as one credit towards the Certified Health and Safety Consultant (CHSC) designation, and as one elective credit towards the OH&S Certificate at British Columbia Institute of Technology.

BCRSP has awarded this course 1.0 CMP

Health & Safety Program Evaluation

Thursday, September 18 and Friday, September 19

8:00 am – 5:00 pm

What's the "safety culture" like in your company or organization?

Measurement is key to ensuring employees are held accountable for their health and safety responsibilities and key in providing

management with the road map to safety excellence. Are you the Health and Safety 'navigator' or just hoping that there aren't too many uncharted gaps in your Health and Safety program?

Many Health and Safety professionals use or misuse methods of measurement and receive false indications of where they're at. A host of program measuring tools are available, but many professionals stick to only one that may not be providing a full perspective.

ATTEND THIS SEMINAR TO:

- Learn the basic principles of health and safety program evaluation
- Learn the appropriate and inappropriate uses and the strengths and weaknesses of frequently used measurement methods including: Incident Statistics, Safety by Objectives, Score Cards, Critical Incident Technique, Behaviour Sampling, H&S Management System Assessment and Perception Surveys
- Assess the 'safety culture(s)' in your company or organizations within your company
- Participate in interactive sessions with other Health and Safety professionals and leave the course with a network of problem-solving colleagues
- Come away with a binder of prepared notes and additional resources
- Receive a CSSE certificate of participation in professional development

This course has been designed to interest a wide audience base – anyone who has a duty under law for workplace health and safety activities from company directors to line supervisors to joint workplace safety and health committee members. It will be of particular interest to anyone who should be involved in the measurement or assessment of health and safety programs and is looking to develop and promote a 'culture of safety excellence'.

BCRSP has awarded this course 1.0 CMP

These courses are being held at the Hilton Quebec, which is attached to the Quebec City Convention Centre. Registration information is included on the conference registration form in this brochure. More information on these courses is available online at www.csse.org or by calling the Society's office at 416-646-1600.

Annual General Meeting of Members

The 2008 Annual General Meeting of Members will be held on Sunday September 14th at the Hilton Quebec from 4:45 pm – 5:45 pm, for the purpose of conducting such business as must come before an annual meeting of the members.

GENERAL INFORMATION

HOW TO REGISTER

Mail or fax the attached registration form to:
Canadian Society of Safety Engineering
39 River Street
Toronto, ON M5A 3P1
Phone: 416-646-1600
Fax: 416-646-9460

Or you can log onto the web site www.csse.org and register on line.

Cancellation Policy: Registration fees are fully refundable if written notice is received by the CSSE office a minimum of two weeks before the conference. If notice is received less than two weeks before the conference, 50% of the registration fee will be refunded. Those failing to notify the office in writing of their cancellation, or those who are "no shows" at the conference, will receive no refund. Registrations can be transferred at any time.

MAINTENANCE POINTS

The Canadian Society of Safety Engineering has applied to the following organizations to have certification maintenance points awarded for attendance at the 2007 CSSE Professional Development Conference & Exposition:

- American Board of Certified Safety Professionals
- American Board of Industrial Hygiene
- American Industrial Hygiene Association
- American Association of Health Nurses
- Board of Canadian Registered Safety Professionals
- Canadian Nurses' Association
- Canadian Registration Board of Occupational Hygienists
- Occupational Hygiene Association of Ontario
- Ontario Kinesiology Association
- Ontario Occupational Health Nurses Associations

ATTIRE

Casual attire is the official dress for all conference events. Delegates are asked to leave all business clothes at home. Come and learn in the relaxed atmosphere of the CSSE Conference.

NO SMOKING AND SCENTS POLICY

In an effort to safeguard the health of all conference participants, smoking will not be allowed at any of the conference events. CSSE also supports a scent-free environment. Please be "scent-sitive".

We appreciate your consideration for fellow conference participants and their guests.

TRANSPORTATION

Air Canada & WestJet have been named the official carriers for the 2008 CSSE Professional Development Conference & Exhibition. Booking is easy. Travel may be booked through Jo-Anne Salisbury, the CSSE travel agent, at Farewell Travel at 1-800-661-5035. Jo-Anne will ensure that you get the best rate available, by using the CSSE Promotion Code. You may also qualify for the savings by either contacting Air Canada Convention Air directly at 1-800-361-7585 or online at www.aircanada.com quoting the CSSE Promotion Code KQNABBY1; or WestJet Specialty Sales Team at 1-877-952-4696 quoting the CSSE Promotion Code QC #5039 (this code does not apply to online registrations). You may also have your travel agent make the call for you.

MEMBERSHIP OPPORTUNITY FOR NON-MEMBERS

Becoming a member of the Canadian Society of Safety Engineering is the perfect means for health and safety professionals at all levels to expand their knowledge, enrich their expertise and explore future issues, strategies and trends. Check the CSSE web site at www.csse.org for information on the benefits of membership.

One immediate benefit is that the difference between the member and non-member fees for the conference can be applied to the annual CSSE membership, if requested. To qualify for these savings, application for membership must be submitted within 30 days of the conference. Annual CSSE membership dues are currently \$189 plus GST/HST, renewable on the anniversary of joining the Society. Just register at the member rate and ask for membership on the registration form for the conference.

COMPANION PROGRAM

Companions registered for the conference are invited to participate fully in the conference and/or in activities planned especially for them. This includes all Plenary Sessions, Workshop Sessions, meals and the Sunday opening reception. Optional activities are as follows (Please pre-register for these activities on the registration form found at the back of this brochure):

Section 2 - Workshop Selections

Please indicate your workshop session preferences below. (one per block)

(B) = Basic (I) = Intermediate (S) = Senior

Pre-Conference Sessions:

Sunday, September 14: 1:00 pm – 4:30 pm

- Techniques for Hazard Recognition (B)
- CSAZ1006, Management of Confined Space Entry (Z1006) – The New CSA Standard (I)

Concurrent Workshop Sessions #1:

Monday, September 15: 10:45 am – 12 noon (Select one)

- 1A Shake Off the Cobwebs on your Incident Investigation Skills (I)
- 1B Implementing a Management System for Health, Safety & Environment (S)
- 1C Hearing and Steering the Conversations That Matter (I)
- 1D Innovative Techniques in Accident Reduction (B)
- 1E FRANÇAIS Changement de Culture en Santé et Sécurité - Aller au delà de la simple conformité aux lois et règlements (I)

Concurrent Workshop Sessions #2:

Monday, September 15: 1:30 pm – 2:45 pm (Select one)

- 2A Review of the New CSA Standards for Fall Protection (I)
- 2B Integrating Safety Management Techniques in Frontline Supervision (I)
- 2C Taking Control of Workplace Safety (I)
- 2D One for All – Teamwork the Meerkat Way (I)
- 2E Challenging Our Culture of Risky Driving (B)

Concurrent Workshop Sessions #3:

Monday, September 15: 3:15 pm – 4:30 pm (Select one)

- 3A Application of Process Safety Management Standard (S)
- 3B Drug and Alcohol Testing – Safety Goals, Building Blocks and Strategies for Success (I)
- 3C Business Continuity Planning (I)
- 3D Health and Safety Culture – Moving Beyond Compliance (I)
- 3E FRANÇAIS Défier Notre Culture de Conduite Risqué (B)

Concurrent Workshop Sessions #4:

Tuesday, September 16: 10:30 am – 11:45 am

- 4A Using Lean Manufacturing and Six Sigma to Improve Ergonomics Performance (S)

- 4B Responding to a Transportation Incident – Lessons Learned (I)

- 4C Do You Have "The Right Stuff" in Your Electrical Safety Program (S)

- 4D "Everyone Returning Home Safe"! How to Link Safety & Leadership to Make It All Work (B)

- 4E FRANÇAIS Comment la Sécurité des Machines Peut Représenter Une Économie Financière et une Productivité Accrue (B)

Concurrent Workshop Sessions #5:

Tuesday, September 16: 1:30 pm – 2:45 pm

- 5A GHS Meets WHMIS: Planning and Preparing for Changes (B)

- 5B Planning a Mega-Project: The Retube/Refurbishment of Point Lepreau Nuclear Generating Station (I)

- 5C Analyzing Management Commitment & Investment (I)

- 5D Peace at Work: The New Safety Imperative (B)

Concurrent Workshop Sessions #6:

Tuesday, September 11: 3:15 pm – 4:30 pm (Select one)

- 6A Preparing Your Organization for a Pandemic: Meeting the Health, Legal, Business Challenge (I)

- 6B "Sustaining an Error Management Culture" The System Approach (S)

- 6C Why and How Machine Safety Represents Low Costs and High Productivity (B)

- 6D Leading Indicators of Safety Performance: What Are They? Are They Important? Are They Valid? (I)

Concurrent Workshop Sessions #7:

Wednesday, September 17: 9:00 am – 10:15 am (Select one)

- 7A Occupational Health: Stresses, Strains and Solutions (S)

- 7B Intervention to Prevention – A Systems Approach to Integrating Ergonomics from the Floor (I)

- 7C Risk Communication in the New Millennium (S)

- 7D Safety Kaizens – A Case Study Intervention in Improving Safety Performance (I)

COMPANION ACTIVITIES REGISTRATION (OPTIONAL)

Descriptions of the following activities are listed on page 17.

MONDAY SEPTEMBER 15, 2008

- Grand Walking Tour of Old Quebec City \$19.75
- Les Artistes De La Table \$99.40
- Buffet Lunch Only
(included in Companion registration fee)

TUESDAY SEPTEMBER 16, 2008

- Country Tour \$50.75
- École de Cirque \$22.60
- Guided Walking Tour – Quebec, Fortified City \$9.90
- Buffet Lunch Only
(included in Companion registration fee)

WEDNESDAY SEPTEMBER 17, 2008
